

FLORIDA HOSPITAL

Memorial Medical Center

Your new hospital has arrived!

After years of planning and construction, *Florida Hospital Ormond Memorial* now has a new home — *and a new name...*

Florida Hospital Memorial Medical Center.

On July 14, 2009, we will no longer accept patients at the *Florida Hospital Ormond Memorial* campus on Sterthaus Avenue in Ormond Beach, but will accept patients at our new facility:

Florida Hospital Memorial Medical Center

301 Memorial Medical Parkway, Daytona Beach, FL 32117

(Between LPGA & Granada off Williamson Boulevard)

The new replacement hospital is now the area's most comprehensive facility, featuring the expansion of many services already available and adding new and exciting features, including all private rooms with window views, the area's only Endovascular/Hybrid Operating Room, a Siemens Somatom Dual Source 64 Slice CT Scanner and 1200 Parking Spaces.
